**Note:** Camera's Primary User may request a direct link to the camera's web page (no log-in required). Contact iBEAM Support at support@ibeamsystems.com.

### NAVIGATION

- Start by selecting a camera
- Choose Photos, Live Stream or Timelapse tab to access the camera features
- See the following pages for detailed menu instructions

## Photos

### PHOTOS TAB

- The newest photo from this project is displayed upon login
- Select an icon to open or close photo tool menus

The screenshot shows the iBEAM construction camera interface. At the top, it displays 'iBEAM CONSTRUCTION CAMERAS' and 'Stella Jones Enfield, Inc. Camera 1 November 9, 2023 10:01 AM EST'. There are navigation tabs for 'Photos', 'Live Stream', and 'Timelapse'. On the left, a 'CALENDAR AND TOOLS' button is visible. On the right, there are 'PREVIOUS, NEXT PHOTO' and 'ZOOM' buttons. At the bottom center, a 'PHOTO TIMELINE' button is shown. The main area displays a wide-angle photo of a construction site with a white pickup truck, a dark car, and several workers in safety gear.

## CALENDAR AND TOOLS

- Select a date on the calendar and a time on the drop-down menu to display the photo
- Select action: full-screen mode, download photo, email photo, or print photo

The screenshot shows the 'CALENDAR AND TOOLS' menu. It features a calendar for November 2023 with the 1st highlighted. Below the calendar is a time selection dropdown menu showing '11:58 AM'. At the bottom, there are four icons representing different actions: a monitor for full-screen mode, a download arrow, an envelope for email, and a printer for printing.

Photos

## PHOTOS MENU (Continued)

### TIMELINE

- Select filter type in the first drop-down menu: All, Hourly, Daily, Weekly, Monthly
- Select additional filter parameter(s) on the secondary drop-down menu: Example: **Hourly** closest to **0:00**
- Select the "Filter" button to apply your filter parameters
- Use the scroll bar to view photo timeline
- Select a photo on the timeline to load

### PREVIOUS/NEXT

- Move to previous/next photo

### ZOOM

- Zoom using the mouse scroll wheel or by dragging the zoom slider  
*Internet Explorer: click the zoom slider to activate*
- Drag the zoomed photo to move

Live Stream

## LIVE STREAM TAB

- Press the Play  icon on the video screen to start the live stream

- Click anywhere on the video window to reposition the camera
- Use the Zoom slider to zoom in or out
- Use the Snapshot button  to save a photo from the live stream

### Timelapse

There are three ways to view time-lapse movies from the Timelapse menu:

#### 1. Instant View

To instantly view a movie with all of the project's daytime photos click the **Load** button and wait for the movie to load in the video player. Once the movie has finished loading, click the play button\* (▶) to begin watching.

\* **Don't see the Play button?** If your screen does not display the play button (▶) underneath the video player, try adjusting the view of your Internet browser. You may need to zoom out the browser's view to 75%-90%. Adjusting the percentage of zoom is commonly found in the Settings menu of your Internet browser.

#### 2. Create a Movie

To create and view a movie with your desired dates and times, follow the steps below:

- Select start and end dates
- Select daily start and end times or select **Include all times** to use all available photos
- Uncheck box to exclude weekends
- Select the playback speed
- Select **Load** and wait for the movie to load in the video player.
- Once the movie has finished loading, click the play button (▶) to begin playback

**Instant Timelapse Videos**

Included Dates: 8/22/2016 to 9/6/2016

Included Times: 8:00 AM to 4:00 PM

Include all times

Weekends:  Include weekends

Speed:  6 FPS  12 FPS  24 FPS

**Load** **Make Downloadable**

#### Downloadable Video Options

Timestamps:  Show timestamp on video

Size:  Small (720p)  Medium (1080p)  Large (2160p [4K])

**Submit Job** **Cancel**

#### 3. Download a Movie

To make a time-lapse movie downloadable, follow the steps from #2 and click **Load**. After the movie has loaded in the video player, click the **Make Downloadable** button and select/deselect your preferred parameters:

- Uncheck the Timestamps box to remove timestamps from the downloaded video
- Select the video size
- **Note: Large (4K) videos can take a long time to render.**
- Click the **Submit Job** button

When your movie has rendered, it will appear in the Downloadable Timelapse Videos list.

- Select Refresh to update the list
- Select Info for details about this video
- Select Download to save the video to your computer
