

OVERVIEW

The Time-Lapse Pro camera saves high resolution still photos of your project, creating a detailed record of construction that includes 4K Ultra HD time lapse movies. Photos and time-lapse movies are available through the web-based iBEAM Camera Console.

The screenshot displays the iBEAM Camera Console interface. At the top, there is a navigation bar with the iBEAM logo and the text "iBEAM CONSTRUCTION CAMERAS". The main content area shows a live feed of a construction site for the "Lehigh Valley Hospital - Muhlenberg Specialty Care Pavilion". The interface includes several callout boxes:

- SHOW ALL CAMERAS**: A button in the top left corner.
- HELP AND ACCOUNT OPTIONS**: A button in the top center.
- CHOOSE PHOTOS OR TIME-LAPSE MOVIES**: A button in the top right corner.
- CALENDAR AND TOOLS**: A button on the left side.
- PREVIOUS / NEXT PHOTO**: A button on the right side.
- ZOOM**: A button on the right side, associated with a vertical zoom slider.
- PHOTO TIMELINE**: A button at the bottom center, associated with a small timeline icon at the bottom of the video frame.

The interface also features a top navigation menu with "HELP", "ACCOUNT", and "LOG OUT" options, and a sub-menu with "Photos" and "Time-lapse" options. The main video frame shows a wide-angle view of the construction site with various buildings, parking lots, and construction equipment.

LOG IN

- Enter your email address/user name and password
- Check “Remember me for 2 weeks” to skip the log-in step in the future.
- Click the “Log In” button

To log in as another user, choose [Log Out](#).

Timelapse

DOWNLOADABLE VIDEO

Use the Instant Timelapse Video menu to create your desired video. Then click the **Make Downloadable** button.

- Uncheck the Timestamps box to remove timestamps from the downloaded video
- Select the video size
Note: Large (4K) videos can take a long time to render.
- Click the **Submit Job** button

Downloadable Video Options

Timestamps: Show timestamp on video

Size: Small (720p) Medium (1080p) Large (2160p [4K])

Submit Job **Cancel**

When your movie has rendered, it will appear in the Downloadable Timelapse Videos list.

- Select Refresh ↻ to update the list
- Select Info for details about this video
- Select Download to save the video to your computer
